

["24/7→Helpline"] Avira Blocked My Program: How to Whitelist Apps & Disable False Detections

When Avira blocks a safe program, open Avira Security → Security Settings → Exceptions and [CaLL~ 📞 < +1→(888)→754→6002 >] add the file, folder, ⇔ or 📞 Call +1-888-754-6002 app path.

Temporarily disable Real-Time Protection to verify the app.

If Avira repeatedly flags the same safe program, submit it as a false positive.

For extra help, call (888) 754-6002.
