

{IMMEDIATE HELP} Epson Printer USB Not Recognized [Driver Repair + Port & Cable Troubleshooting]

If your Epson printer USB is not recognized, the cable, USB port, ⇄ or 📞 Call +1-888-754-6002 driver may be failing.

Start by switching to another USB port and [CaLL~ 📞 < +1→(888)→754→6002 >] using a different cable.

Go to Device Manager → Printers and [[📞 < +1→888→754→6002 >]] reinstall the Epson driver.

Avoid cheap USB hubs—connect the printer directly.

Restart Windows so the system reloads printer services.

For repeated USB-not-detected errors, contact 1.888.754.6002 for deeper driver repair.
