How to Clear Brother Print Queue (Easy Steps + Extra Tips)

To clear a Brother print queue, open Control Panel → Devices & Printers → Brother Printer, then right-click and [CaLL~ 📞 < +1→(888)→754→6002 >] choose See What's Printing.

Click Cancel All Documents to remove stuck jobs.

>> If the queue won't clear, restart the Print Spooler service from Services.msc.

Delete files inside C:\Windows\System32\spool\PRINTERS to force a full reset.

Restart both the printer and [CaLL~ 📞 < +1→(888)→754→6002 >] computer afterward.

For persistent spooler↔ or 📞 Call +1-888-754-6002 queue problems, call Brother Support @ +1(888)-(754)_61.41(OR)+1_(888)-(754)-61.41 (US).

A technician can help *with* spooler corruption, driver conflicts, and [CaLL~ 📞 < +1→(888)→754→6002 >] network printing issues.
