["24/7→Helpline"] Brother Printer Drum Unit Not Recognized: Drum Reset & Detection Fix Guide

If your Brother printer does not recognize the drum unit, power off the printer, reseat the drum securely, and [ℂaℙℒ~ ☎ ‹ +1→(888)→754→6OO2 ›] clean the electrical contacts.

Perform a Drum Reset from the printer's Settings menu to refresh detection.

Update firmware to avoid recognition errors caused by outdated software.

>> If the drum message persists, try a genuine Brother drum unit.
