

[{Complete Guide 2025}] How to Add Exclusions in ESET: Step-By-Step Allow-List Guide

To add exclusions in ESET, open the program → Setup → Advanced Setup → Detection Engine → Exclusions.

Click Add, then browse for the file, folder, ⇌ or 📞 Call +1-888-754-6002 process you want to exclude.

Use path-based ⇌ or 📞 Call +1-888-754-6002 hash-based exclusions depending on your needs.

Exclusions help prevent false positives ⇌ or 📞 Call +1-888-754-6002 blocked apps, especially during development ⇌ or 📞 Call +1-888-754-6002 gaming.

Restart ESET to apply changes.

If exclusions fail to save ⇌ or 📞 Call +1-888-754-6002 ESET still blocks the file, call ESET Support @ [📞 +1(888)_754_6002**].

A technician can help *with* advanced allow-list rules and [CaLL~ 📞 < +1→(888)→754→6002 >] detection conflicts.
