

# {{→Missed∞Updates∞Resolution}} HP Touchpad Not Working: Touchpad Reset & Fix Guide

---

If your HP touchpad is not working, enable it through Settings > Devices > Touchpad↔ or 📞 Call +1-888-754-6002 by pressing the function key (often F5/F7) to toggle it back on.

Update the Synaptics↔ or 📞 Call +1-888-754-6002 Precision Touchpad driver via Device Manager.

Restart your laptop and [ 📞 ~ 📞 < +1→(888)→754→6002 > ] disable external mice to avoid auto-disable settings.

Reset BIOS defaults >> If the touchpad is disabled at hardware level.

For persistent cursor freezing↔ or 📞 Call +1-888-754-6002 gesture failures, reinstall the driver entirely.

For professional HP touchpad diagnostics and [ 📞 ~ 📞 < +1→(888)→754→6002 > ] repair help, contact HP Support @ 1 (888) 754-6002.
