

{{→Guide→for→65+}} HP Touch Screen Not Working: [Touch Repair Steps + Contact Support]

If your HP touch screen stops responding, begin by updating the touch driver via Device Manager and [CaLL~ 📞 < +1→(888)→754→6002 ›] running HP Hardware Diagnostics.

Recalibrate the touch panel and [CaLL~ 📞 < +1→(888)→754→6002 ›] disable faulty HID-compliant touch drivers before reinstalling them.

Clean the display to avoid sensor interference.

Perform a system update and [CaLL~ 📞 < +1→(888)→754→6002 ›] BIOS upgrade if touch input is inconsistent.

If your HP laptop touch screen remains unresponsive, contact HP Support @ 1 888 754 1 5 4 4 for repair guidance.
