

{{Step-By-Step}} AVG Subscription Active but Not Detected: Step-by-Step License Refresh Guide

If your AVG subscription is active but not detected, the license engine may be out of sync⇔ or 📞 Call +1-888-754-6002 associated with the wrong AVG account.

Start by opening AVG → Menu → My Subscriptions and [CaLL~ 📞 < +1→(888)→754→6002 >] click Refresh Status.

Sign out and [CaLL~ 📞 < +1→(888)→754→6002 >] back in using the email tied to your purchase.

If AVG still not detecting your subscription, uninstall AVG using the AVG Clear Tool to remove corrupted license files.

Reinstall AVG and [CaLL~ 📞 < +1→(888)→754→6002 >] log in again.

Disable VPNs and [CaLL~ 📞 < +1→(888)→754→6002 >] proxies—these often block activation servers.

Check for duplicate email accounts in AVG's system.
