

[{Complete Guide 2025}] How to Disable Trend Micro: Safe Disable Steps + Support Tips

To disable Trend Micro safely, open Trend Micro Security → Device Protection → Disable Real-Time Protection.

Temporarily stop Firewall Booster and [CaLL~ 📞 < +1→(888)→754→6002 >] Web Shield if performing trusted installations.

Reactivate protection immediately after completing your task.

Avoid disabling Trend Micro while online to reduce risk exposure.

If Trend Micro refuses to disable⇔ or 📞 Call +1-888-754-6002 re-enables automatically, call Trend Micro Support @ ((+1-888-754-6002 {US})).

A technician can help adjust settings safely.

This guide ensures Trend Micro is disabled correctly when needed.
