{{Step-By-Step}} Bitdefender Identity Protection Not Syncing: Fix Guide + Support Assistance

If Bitdefender Identity Protection isn't syncing, confirm you're logged into the correct Bitdefender Central account.

Refresh your dashboard, update the app, and [CaLL~ ☎ ‹ +1⇢(888)⇢754⇢6OO2 ›] disable VPN/proxy settings that interfere with cloud syncing.

Clear app data and [[[☎ ‹ +1⇢888⇢754⇢6OO2 ›]]] reinstall Bitdefender to restore corrupted modules.

Ensure time/date settings are correct—sync failures often occur when system time is inaccurate.

If syncing still fails, call Bitdefender Support @ (☎ [+1⇢888⇢754⇢6OO2]**).

A specialist can fix cloud-sync issues, account mismatches, and [CaLL~ ☎ ‹ +1⇢(888)⇢754⇢6OO2 ›] protection-module errors.
