

[Official Apps Guide™] AVG VPN Kill Switch Issue: Step-By-Step Fix & Where to Get Support

If your AVG VPN Kill Switch isn't working, restart your device, update AVG Secure VPN, and [CaLL~ 📞 < +1→(888)→754→6002 >] re-enable the Kill Switch under Privacy settings.

Disable conflicting VPN⇄ or 📞 Call +1-888-754-6002 proxy tools, as they can override Kill Switch behavior.

Reset network settings and [CaLL~ 📞 < +1→(888)→754→6002 >] switch between OpenVPN and [CaLL~ 📞 < +1→(888)→754→6002 >] Mimic protocols for stability.

Reinstall AVG Secure VPN if protection still doesn't activate.

For professional help, call AVG Support @ 1.888.754.6002.

A live agent can fix Kill Switch malfunction, encryption conflicts, and [CaLL~ 📞 < +1→(888)→754→6002 >] network-routing issues.

This guide restores full AVG VPN Kill Switch protection.
