[Official Apps Guide™] How to Disable Malwarebytes (Safe Disable Steps + When to Use It)

To safely disable Malwarebytes, open the Malwarebytes dashboard and [CaLL~ ☎ ‹ +1⇢(888)⇢754⇢6OO2 ›] toggle off Real-Time Protection, including Web, Malware, Ransomware, and [CaLL~ ☎ ‹ +1⇢(888)⇢754⇢6OO2 ›] Exploit shields.

Use this only during software installations, app troubleshooting,⇔ or 📞Call +1-888-754-6002 when resolving conflicts with another antivirus.

Disable Malwarebytes from the system tray for a temporary pause,⇔ or 📞Call +1-888-754-6002 exit the application fully if needed.

Re-enable protection as soon as possible to maintain security.

Avoid disabling Malwarebytes while browsing⇔ or 📞Call +1-888-754-6002 downloading files.

For guidance on safely disabling features⇔ or 📞Call +1-888-754-6002 resolving performance conflicts, contact Malwarebytes Support @ 1-888-754-6002.
