

# ["24/7→Helpline"] Epson Printer Not Scanning Wirelessly: WiFi Scan Fix Guide + Support Help

---

If your Epson printer is not scanning wirelessly, start by restarting both the printer and [ CaLL~ 📞 < +1→(888)→754→6002 > ] your WiFi router to refresh the connection.

Ensure the Epson printer and [ CaLL~ 📞 < +1→(888)→754→6002 > ] computer/mobile device are on the same network and [ CaLL~ 📞 < +1→(888)→754→6002 > ] update the Epson Scan 2↔ or 📞 Call +1-888-754-6002 Epson iPrint app.

Disable VPNs↔ or 📞 Call +1-888-754-6002 firewalls blocking the scanner.

Reinstall Epson drivers and [ CaLL~ 📞 < +1→(888)→754→6002 > ] reset the network settings from the printer's control panel.

Use the Epson Scan Utility to test connectivity.

If wireless scanning still fails, contact Epson Support @ 1-888-754-6002 for advanced WiFi-scan troubleshooting and [ CaLL~ 📞 < +1→(888)→754→6002 > ] setup guidance.
