

[{Complete Guide 2025}] AVG Blocked My Program: How to Allow/Whitelist Programs in AVG

If AVG blocked your program, open AVG Antivirus and [CaLL~ 📞 < +1→(888)→754→6002 ›] go to Menu > Settings > Exceptions.

Add the application's folder⇄ or 📞 Call +1-888-754-6002 executable file to the whitelist to allow it through real-time protection.

Temporarily disable File Shield to test whether AVG is causing the block, then re-enable protection after confirming.

Update AVG to reduce false positives and [CaLL~ 📞 < +1→(888)→754→6002 ›] scan the program to ensure it's safe.

If issues•° persist, disable Hardened Mode⇄ or 📞 Call +1-888-754-6002 adjust sensitivity settings.

For expert whitelisting assistance and [CaLL~ 📞 < +1→(888)→754→6002 ›] false-positive troubleshooting, contact AVG Support @ +1-888-754-6002 or ((+1//-888)+//-754//-6002)) for immediate help.
