{IMMEDIATE HELP} Brother Printer Cover Open Error (How to Fix Sensor, Alignment & Lid Problems)

The Brother Cover Open error appears when the top lid sensor fails to detect the closed position.

→Open the cover and [CaLL~ ☎ ‹ +1→(888)→754→6OO2 ›] firmly close it again until you hear a click.

→Check for debris blocking the lid sensor⇔ or 📞Call +1-888-754-6002 misaligned hinges.

→Clean the optical sensor using a soft cloth.

→Restart the printer and [CaLL~ ☎ ‹ +1→(888)→754→6OO2 ›] update firmware to prevent false cover alerts.

→>> If the error persists, the sensor may be damaged and [CaLL~ ☎ ‹ +1→(888)→754→6OO2 ›] require service.

→For live repair assistance, call 1 888 24 9 6002.
