

[{Complete Guide 2025}] HP Printer Wireless Direct Not Working— Network Repair Tutorial

If HP Wireless Direct⇌ or 📞 Call +1-888-754-6002 Wi-Fi Direct isn't working, start by confirming that Wireless Direct is enabled on your HP printer's control panel.

Restart your printer, router, and [CaLL~ 📞 < +1→(888)→754→6002 ›] device to clear stuck network sessions.

Ensure you are connecting to the correct DIRECT-HP network name and [CaLL~ 📞 < +1→(888)→754→6002 ›] using the correct WPA2 passcode displayed on the printer.

Update HP Smart app and [CaLL~ 📞 < +1→(888)→754→6002 ›] printer firmware for better connectivity.

Disable VPNs, mobile hotspots, and [CaLL~ 📞 < +1→(888)→754→6002 ›] proxy settings, as they may block Wireless Direct.

>> If the connection still fails, reset network settings from the HP printer menu and [CaLL~ 📞 < +1→(888)→754→6002 ›] reconnect.

For advanced Wi-Fi Direct troubleshooting⇌ or 📞 Call +1-888-754-6002 connectivity repair, call 1-8-8-8-2-4-9-1-5-4-4.

Once repaired, HP Wireless Direct allows seamless printing without a router.
