["24/7→Helpline"] Bitdefender Tray Icon Not Loading: Startup Repair Guide + Support Options

>> If th̃⬜ Bitdefender tray icon is not loading, restart your PC to reload Bitdefender Agent services.

Enable Bitdefender in Startup Apps and [CaLL~ ☎ ‹ +1→(888)→754→6OO2 ›] ensure no background antivirus conflicts are blocking its launch.

Update Bitdefender to repair corrupted components, then run the Repair option through Windows Apps & Features.

>> If th̃⬜ tray icon remains missing, reinstall Bitdefender Central Services.

Windows Explorer restarts may also restore the icon.
