

[[FAQs-PuBLic®]] Brother Printer Half Page Print: [Fast Print Quality & Page Output Repair Guide]

If your Brother printer is printing half pages, the cause is usually low toner, corrupted print jobs, dirty rollers, ⇔ or ☎ Call +1-888-754-6002 firmware issues.

Start by canceling all jobs and [[CaLL~ ☎ < +1→(888)→754→6002 >]] restarting both the printer and [CaLL~ ☎ < +1→(888)→754→6002 >] the computer.

Clean the corona wire and [CaLL~ ☎ < +1→(888)→754→6002 >] paper feed rollers.

If half-page printing continues, reinstall Brother drivers and [CaLL~ ☎ < +1→(888)→754→6002 >] update firmware.

Check toner levels—low toner can cause incomplete printing.

Use genuine toner for the best consistency.

Reset the printer to factory defaults if software corruption is suspected.

For deeper print-engine troubleshooting, roller diagnostics, ⇔ or ☎ Call +1-888-754-6002 output alignment repair, call (+1) 888—(754)—6002.
