

A guide to gifting items
What we need to fully furnish homes
and lives of family violence survivors

Woven Earth
creating more loving homes

At Woven Earth, we understand the challenges of rebuilding lives after violence – starting over is often a confronting moment, survivors have few possessions, limited resources, and little support. Your generous donations of preloved or new items will mean a family who has fled violence will not have to start over in an unfurnished home.

We fully furnish each home, tailored to every person's unique needs – especially children who face profound upheaval – all at no cost to them. About 60% of what we provide is pre-loved in excellent condition, and 40% new items – gifted, or purchased directly from donations. Our priority always, is restoring dignity, and we ask for your help to maintain this by only donating items you would feel proud to have in your home.

Whether you are an individual, or organisation wishing to gift items – preloved or new – this guide is a comprehensive list of the items we accept and need to set up a fully furnished home.
