seechange

**Many people desire change
however few actually experience it.**
We believe when a community positions
itself to encounter God and His ultimate love
for people, therefore you can count on being
"changed into a different person".

About us

Our Heart / Seechange is a Jesus Kingdom Community that is made up of people from different experiences, cultures, ages and socio-economic backgrounds.

It's a beautiful diverse mix of people who are on a journey to believing and living for Jesus. It's a journey of faith whereby some believe more than others and many still have some doubts they are working through.

Even though we all find ourselves in different places on the journey, Seechange is a place where we all can belong because we are committed to one big vision - To Seechange.

God's Mosaic / God has a story He is creating, an amazing adventure which He is inviting us to take part in. He is the architect and He invites us into His story to play a very important part.

Each part is significant, valued and precious in Gods sight. We need every piece to be discovered and take its place in the grand story.

When we take our place we find hope, significance and begin to see what an amazing masterpiece you are a part of. We trust to find your place here at Seechange, and consequently find your place in Gods story.

12+ Years Strong / Seechange started in 2006, we were a new Church plant from Kingsway Community Church in Caringbah.

Seechange has stayed significantly connected to Kingsway. We believe we are one Church in three locations (Caringbah, Jannali and Cambodia). The grand vision of all campuses is to create life giving hubs that are a refuge for healing, river of refreshment and resource for unity.

We have centralised leadership with Brett and Jenni White as senior pastors of all campuses. They work closely with Brook and Tammy Stewart who are the lead pastors of Seechange Community.
