IMAGE SOURCE ANALYSIS WORKSHEET

TITLE OF IMAGE/DETAILS OR DESCRIPTION/NAME OF PHOTOGRAPHER/NAME OF COLLECTION/NUMBER OF IMAGE:

STEP 1: OBSERVATION

1. Record your overall impression

What do you see? What stands out the most? What is the physical setting? What people, animals and objects are shown? What's happening in the image?

2. Divide the image/photo into four sections (quadrants) and look carefully at each quadrant.

Record the people, objects and activities that you observe in the table below

People/Animals	Objects	Activities/Action

STEP 2: INFERENCE (drawing conclusions based on evidence and reasoning)

What might you infer from this photograph? Try to list at least three things.

STEP 3: QUESTIONS

1. What questions does this image/photograph raise? (For example: *When was the image taken? Who was the photographer? Who is not included in the image? Why was this image taken?*)

2. How could you find answers to your questions?
