### About the Jaques Coffee Plantation...

The Jaques Coffee Plantation is situated in Mareeba on the Atherton Tablelands, North Queensland, Australia, with a beautiful backdrop looking over the surrounding peaks of the Great Dividing Range.

The Jaques Family have a long history growing coffee in Australia, developing the world's first Mechanical Coffee Harvester, with many trials and tribulations battling to grow the perfect coffee. And now at the 3rd generation of coffee growing, the plantation is furnished with 85,000 Arabica Coffee trees on rich soils, boasting a smooth and vibrant flavour unique only to our remarkable location.

With the ever growing enthusiasm for coffee around the world, the Jaques Family have also opened up their private plantation to the world, giving travellers, locals, coffee lovers and professionals an enchanting insight into the finer details of coffee from the tree to the cup.
