C-CAR POINTS

As you will be aware, I-CAR NZ has updated the Automotive Steel MIG Welding Qualification which now better reflects current welding practices.

The C-CAR points committee has decided that given the relevance and importance of passing this Qualification all technicians and apprentices (regardless of credits attained) will now attain 3 C-CAR points per person.

For members unfamiliar with C-CAR (Continuing Compulsory Annual Retraining) points, if your CRA membership category is a 'Structural Repair Centre' you are required to currently attain 8 points every calendar year.
