## ENVIRONMENTAL MANAGEMENT PLAN

As part of ensuring a quality service is provided to its members, CRA have developed this Plan to support collision repairers. The Environmental Management Plan (EMP) template is prepared to assist each company in specifically fulfilling their obligation under the Resource Management Act (RMA) and the Hazardous Substances and New Organisms Act (HSNO).

The issue of EMP was recently highlighted in IAG's 'Request for Proposal' and we developed a template to assist members. This template, originally as a pdf has now been created as a word document allowing you to personalise it for your business.
