HEALTH MONITORING

It has now become clear that health monitoring in our industry is a must do.

Our recent roadshow with Worksafe highlighted the fact that annual health checks are now mandatory. This is because when hazards are minimised it is your responsibility to measure the effectiveness of this minimisation - the only practical way to do this is with annual health checks.

The CRA have an approved supplier 'Life Care Consultants' that will provide the required health checks. Please contact info@lifecare.co.nz or phone 0800-493559.
