## THE I-CAR AUTOMOTIVE STEEL GMA (MIG) WELDING QUALIFICATION TEST

As you are aware, in order to maintain your Automotive Steel GMA (MIG) Welding Qualification status, you must requalify every 5 years.

In order for us to program a retesting schedule, can you please advise the National Office on the return form below of all your employees that hold this qualification. This will assist us in locating any technicians that may have moved companies or left the trade.

Thank you for your assistance in this matter.
