CRA APPRENTICESHIP SCHOLARSHIP PROGRAMME

The Collision Repair Association is delighted to announce a scholarship programme for apprentices.

We are looking for bright, passionate, committed youngsters who possess a strong work ethic and are eager to succeed.

The apprentice must be employed by a member of the **CRA**. We will monitor the apprentices progress and Rick Lunn (WorldSkills coach) who will be in regular contact to help keep them on track. Completion of theory work and assignments is the employer's responsibility. Most apprenticeships take around 3 years.

If accepted, we will pay the apprenticeship fees each year (to a maximum of 4 years) which will provide the apprentice with a nationally recognised qualification in either collision repair or automotive refinishing as well as fund the coaching.

To apply for this Apprenticeship please contact National Office who will email you the application form to complete.
