

Rhodanthe anthemoides
PAPER STAR

FULL SUN

PART SHADE

FEATURES

Flowering native with papery
'everlasting' flowers in spring.

Starry white flower from late winter
into spring.

Easy to grow and fast results.

Low growing with trailing habit.

MY GARDEN SOLUTIONS®

FOR

Native or wildflower style gardens.

Ideal for patio containers or hanging baskets.

Will trail lightly over walls, rockeries and
embankments.

Compact for small or narrow spaces.

Flowers can be dried for crafts.

Pollinator friendly plant.

CARE

Water when dry for first 6 weeks after planting
and in regularly in dry weather.

Prune back by up to a third of overall size
in autumn to maintain dense habit.

Apply a slow release fertiliser for natives in
autumn.
