

Fuchsia

CORALLE

1.2m

1m

PART SHADE

FEATURES

Great garden variety with upright habit.

Long flowering display of coral coloured, tubular flowers through the warmer months.

Attractive dark foliage with maroon tinted new growth.

Low maintenance and easy to grow.

MY GARDEN SOLUTIONS®

FOR

Bold colour in low light areas.

Large containers on patios or decking.

Fast growing for quick results.

Low maintenance and hardy for use in mixed garden beds.

CARE

Water when dry for first 6 weeks after planting and in dry weather, or when foliage begins to wilt.

Protect from strong afternoon sun.

Prune to required size/shape in early spring.

Apply slow release fertiliser in early spring.

If frost is expected:

- move patio containers undercover.
- in garden, remove any frost damage and plant will recover.
