

*Penstemon x gloxiniodes* 'Bell Tower Red'

Height 60cm  
Spread 60cm

FULL SUN

PART SHADE

MIXED BORDERS

CONTAINERS

LONG FLOWERING

WATER WISE

POLLINATOR PLANT

## FEATURES:

- Bred for heavy flowering with large, brightly coloured tubular flowers.
- Generous displays from spring to autumn.
- Easy to grow with neat habit and reliable performance in most soil types.

## SUGGESTED USES:

- Plant in groups for large blocks of colour.
- Fast results for new gardens.
- Large containers or general garden use
- Cottage or wild flower style gardens.

## CULTURAL CARE

Prefers a rich but well draining soil.  
Low water requirements once established.  
Prune by half in late autumn, early winter or after flowering. Removing spent flower stems will help lengthen displays.  
Feed with slow release fertiliser during spring.  
Frost hardy once established.
