

LAVANDULA

'PURPLEREIGN'®

DELUXE DEEP PURPLE FLOWERS

The deep purple wings of this stunning plant create a rich and sumptuous feel that adds a level of luxury for outdoor pots and garden beds. Peak flowering is in early spring with spot flowering throughout the warmer months and, unlike other lavenders, the flowers are born close to the plant which has a tight and compact mounded habit. This Lavender is a real garden rock-star!

FULL SUN

DRY TOLERANT

CONTAINERS

LOW HEDGING

FEATURES

- Early and long flowering
- Deep purple flower wings that cover the whole plant
- Tidy and compact grey-green foliage
- A living bouquet of flowers – the perfect gift

USES

- Easy-care plant with exceptional flower display
- Spectacular flower colour-show for borders and path edges
- Water wise and sunny gardens
- High impact low informal hedges and pots
- Rockeries and coastal gardens

CARE

Low water requirements. Drought tolerant once established. Plant in a sunny situation in well-draining soil or potting mix. In late summer clip foliage back by two-thirds to maintain good form. Apply a slow release fertiliser in early spring and autumn.
