PART SHADE

FEATURES

Compact form ideal for small spaces and containers.

Heavy flowering in spring with repeat flushes through to autumn.

Bred in Australia.

Improved variety for great garden performance.

MY GARDEN SOLUTIONS®

FOR

Bright colour for entrance ways and entertainment areas.

Perfect for patio containers or hanging basket.

Great effects when planted in small groups or dotted through a mixed garden bed.

CARE

Moderate water needs - water when dry for first 6 weeks after planting and in dry weather, or when foliage begins to wilt.

Give a light trim after main flowering to maintain a dense and neat habit.

Protect from strong afternoon sun.

Apply a slow release fertiliser during spring.

If frost is expected - move patio containers undercover.
