

Lotus berthelottii

RED FLASH

20cm to 90cm

FEATURES

Low growing, spreading habit which will trail over walls or weave around rocks.

Masses of fiery red coloured blooms cover the silver grey foliage from late spring into summer.

Low water requirements once established.

USES

Mass plant as a fast growing ground cover in a sunny location with good drainage.

Contemporary gardens, mixed perennial borders or cascading over walls and embankments.

Containers and hanging baskets as well as general garden use.

CARE

Grows well in most soil types which are well draining and in a sunny location.

No pruning generally required. An application of slow release fertiliser during spring would be beneficial to overall performance.

Give protection from frosts.
