

Frostkiss® Hellebore 'Cosmio' is one of the newest additions to the Frostkiss® Collection. It showcases stunning, almost black stems that reveal large open flowers in smoky mulberry tones that lighten as the flower matures. Flowers appear in winter and into early spring, providing long-term colour. 'Cosmio' features the well-loved trait of strong marbled leaves in shades of dark and light green, adding contrast and interest to the garden no matter the season.

Part Shade

Full Shade

Containers

H 50cm

W 50cm

Features

- Masses of upright blooms that sit above the foliage
- Smoky mulberry flowers
- Compact, neat and evergreen shrub
- Long flowering – winter to early spring
- Marbled foliage

Uses

- Enjoy indoors for up to three weeks* before planting in your garden
- Bright and cheerful for shady nooks
- Plant under established tree canopies
- Containers or garden beds

Care

Plant in any soil that is well draining. Tidy after flowering by removing old flower heads. If growing in containers or full sun, care should be taken not to allow to dry out completely. For best results, feed in late autumn and spring with a slow release fertiliser before and after flowering.

CAUTION: Harmful if eaten/skin irritant

*Performance indoors will vary due to conditions within each environment.

ORIGIN: Netherlands // **SPECIES:** Helleborus hybrid
