Baby shower party ☺

A note from Kym Campbell at Smart Fertility Choices

My name is Kym Campbell and I am the founder of Smart Fertility Choices; a website aimed at empowering women with the knowledge they need to battle infertility by covering a range of topics from natural fertility solutions and emotional support to assisted reproductive medicine and fertility preservation.

After four years of quietly struggling with infertility myself, I became motivated to be a voice for those dealing with the very common issue.

The Fertility Treatment Cost Checklist aims to provide an insight into the financial expenditure you may experience when undergoing fertility treatment. I hope it gives you an idea of what is to come in the future. Wishing you all the best on your fertility journey!

Xo Kym
