

# CONCENTRATED DISHWASHING POWDER

## PRODUCT DESCRIPTION

This Machine Dishwasher Powder will produce excellent soil removing results without the long term corrosion problems some dishwash powders can suffer from. This corrosion is often noticable on glassware as it washes. We have utilised the power of not one, but two enzymes to completely remove all common soiling and to leave your pots and pans, crockery, cutlery and glassware sparkling clean. Scale buildup is non existent as we have used special anti-scaling agents to prevent this from happening.

## MIXING & USE INSTRUCTIONS

Using the teaspoons provided simply add 2-3 teaspoons in your wash compartment and 2-3 teaspoons in your pre-wash compartment. If no pre-wash compartment simply place on the door of the machine. If using a regular teaspoon, only 1 is needed for your wash compartment. More may be required for heavily soiled items, greasy items or in hardwater areas. PLEASE ALSO FOLLOW MANUFACTURERS RECOMMENDATIONS.
