

Safety Data Sheet

Solo Pak Solosan

Page 1

Compilation Date: 1 January 2006

Issue Date: 7 October 2016

Revision No: 2.0

1. Chemical Product and Company Identification

Product Name	Solo Pak Solosan
Other Means of Identification	None
Product Code	
Product Use	Sanitiser for food preparation areas
Supplier	Solo Pak Pty Ltd
ABN	29 076 652 269
Mail Address	PO Box 67, Brisbane Markets QLD, 4106
Email	sales@solopak.com.au
Telephone:	1300 307 755
Emergency Telephone:	Poisons Information Centre (National) 131126

2. Hazards Identification

Classification of the substance or mixture

HAZARDOUS CHEMICAL. NON-DANGEROUS GOODS. According to the WHS Regulations and the ADG Code.

GHS Classification	Skin corrosion / Irritation – Category 2 Eye Irritation – Category 2A Acute Aquatic Hazard - Category 2
---------------------------	---

GHS Label Elements

SIGNAL WORD

WARNING

Hazard Statement(s)

H303	May be harmful if swallowed
H316	Causes mild skin irritation
H319	Causes serious eye irritation.

Prevention(s)

P280	Wear protective gloves/protective clothing/eye protection/face protection
P260	Wash exposed skin thoroughly after handling
P270	Do not eat, drink or smoke when using this product.
Read the SDS before using this product.	

Response

Safety Data Sheet

P362
P305+P351+P338

P337+P313
P302+P352
P301+P312
P332+P313

IF SWALLOWED: Rinse mouth. Do NOT induce vomiting
Take off contaminated clothing and wash before reuse.
IF IN EYES: Rinse cautiously with water for several minutes.
Remove contact lenses, if present and easy to do. Continue rinsing.
If eye irritation persists: Get medical advice / attention.
IF ON SKIN: Wash with plenty of soap and water.
Call POISON CENTER or doctor if you feel unwell.
If skin irritation occurs, get medical advice/attention.

Storage

| Not applicable

Disposal

P501

| Dispose of contents/container in accordance with local/regional/national/international regulations.

3. Composition/Information on Ingredients

(Listed when present at 1% or greater, carcinogens at 0.1% or greater)

Chemical Name	CAS Registry Number	% Weight	Hazard Information
Didecyl dimethyl ammonium chloride	7173-51-5	<5	H301: Toxic if swallowed H314: Causes severe skin burns and eye damage H318: Serious eye damage Category 1 H400: Acute aquatic toxicity Category 1 H412: Harmful to aquatic life with long lasting effects
Ingredients determined not to be hazardous	Mixture	<5	None
Water	7732-18-5	To 100	None

The SWA TWA exposure value is the average airborne concentration of a particular substance when calculated over a normal 8 hour working day for a 5 day working week. The STEL (Short Term Exposure Limit) is an exposure value that may be equaled (but should not be exceeded) for no longer than 15 minutes and should not be repeated more than 4 times per day. There should be at least 60 minutes between successive exposures at the STEL. The term "peak" is used when the TWA limit, because of the rapid action of the substance, should never be exceeded, even briefly.

4. First Aid Measures

General

For advice, contact a Poisons Information Centre (Australia 13 11 26) or a doctor. If swallowed, do NOT induce vomiting. Immediately give a glass of water.

Inhalation

If fumes, aerosols or combustion products are inhaled remove from contaminated area. Other measures are usually unnecessary.

Skin

If skin contact occurs:
Immediately remove all contaminated clothing, including footwear.
Flush skin and hair with running water (and soap if available).
Seek medical attention in event of irritation.

Eyes

If this product comes in contact with the eyes:

	<p>Wash out immediately with fresh running water. Ensure complete irrigation of the eye by keeping eyelids apart and away from eye and moving the eyelids by occasionally lifting the upper and lower lids. Seek medical attention without delay; if pain persists or recurs seek medical attention. Removal of contact lenses after an eye injury should only be undertaken by skilled personnel.</p>
Ingestion	<p>If swallowed do NOT induce vomiting. If vomiting occurs, lean patient forward or place on left side (head-down position, if possible) to maintain open airway and prevent aspiration. Observe the patient carefully. Never give liquid to a person showing signs of being sleepy or with reduced awareness; i.e. becoming unconscious. Give water to rinse out mouth, then provide liquid slowly and as much as casualty can comfortably drink. Seek medical advice.</p>
Symptoms Caused by	<p>Prolonged skin contact may result in dermatitis or reddening of the skin.</p>

Indication of any immediate medical attention and special treatment needed

Treat symptomatically.

5. Fire Fighting Measures

Extinguishing Media	<p>The product contains a substantial proportion of water, therefore there are no restrictions on the type of extinguishing media which may be used. Choice of extinguishing media should take into account surrounding areas. Though the material is non-combustible, evaporation of water from the mixture, caused by the heat of nearby fire, may produce floating layers of combustible substances. In such an event consider: foam.</p>
Fire Fighting	<p>Alert Fire Brigade and tell them location and nature of hazard. Wear breathing apparatus plus protective gloves in the event of a fire. Prevent, by any means available, spillage from entering drains or water courses. Use fire fighting procedures suitable for surrounding area.</p>
Fire and Explosion Hazards	<p>Non combustible. Not considered to be a significant fire risk. Expansion or decomposition on heating may lead to violent rupture of containers. Decomposes on heating and may produce toxic fumes of carbon monoxide (CO). Decomposes on heating and produces toxic fumes of: carbon dioxide (CO₂), hydrogen chloride, phosgene, nitrogen oxides (NO_x), other pyrolysis products typical of burning organic material</p>

6. Accidental Release Measures

Solo Pak Solosan

Personal precautions, protective equipment and emergency procedures

Minor Spills	Clean up all spills immediately. Avoid breathing vapours and contact with skin and eyes. Control personal contact with the substance, by using protective equipment. Contain and absorb spill with sand, earth, inert material or vermiculite.
Major Spills	Slippery when spilt. Moderate hazard. Clear area of personnel and move upwind. Alert Fire Brigade and tell them location and nature of hazard. Wear breathing apparatus plus protective gloves. Slippery when spilt.

Personal Protective Equipment advice is contained in Section 8 of the SDS.

7. Precautions for handling and storage

Precautions for safe handling

Precautions for Safe Handling	Limit all unnecessary personal contact. Wear protective clothing when risk of exposure occurs. Use in a well-ventilated area. Avoid contact with incompatible materials. DO NOT allow clothing wet with material to stay in contact with skin
Other Information	Store in original containers. Keep containers securely sealed. Store in a cool, dry, well-ventilated area. Store away from incompatible materials and foodstuff containers.
Conditions for safe storage, including any incompatibilities	
Suitable containers	Lined metal can, lined metal pail/ can. Plastic pail. Polyliner drum. Packing as recommended by manufacturer.
Storage Incompatibility	None known

8. Exposure controls /personal protection

National Exposure Standards	An exposure standard has not been established for this product.
Engineering Controls	Use in well-ventilated area
Personal Protection	
Eyes/Face	Safety glasses
Hands	Rubber gloves. Avoid skin contact.
Skin	Not generally required when used as per label directions. Avoid skin contact.
Respiratory	Not generally required when used as per label directions. Avoid inhaling spray mist.

9. Physical and chemical properties

Safety Data Sheet

Solo Pak Solosan

Physical Description & colour:	Clear blue mobile liquid.
Odour:	Typical QAC odour
Boiling Point:	Approximately 100°C at 100kPa.
Freezing/Melting Point:	Lower than 0° C.
Volatiles:	95% Water.
Vapour Pressure:	No data.
Vapour Density:	No data.
Specific Gravity:	1.02
Water Solubility:	Completely soluble in water.
pH:	7.0-8.0
Volatility:	No data.
Odour Threshold:	No data.
Evaporation Rate:	No data
Coeff Oil/water distribution:	No data

10. Stability and Reactivity

Chemical Stability	The product is stable under normal conditions
Possibility of Hazardous Reaction	None known
Conditions to Avoid	Extreme heat and temperatures
Incompatible Materials	Strong oxidizing agents
Hazardous Decomposition Products	None known

11. Toxicological information

Toxicology Information	No toxicity information is available for this product.
Inhalation	Aspiration (breathing in) of liquid spray or mist liable to cause severe irritation and damage to respiratory tract.
Ingestion	Quaternary ammonium salts in high concentrations are irritant. May cause gastric upset.
Skin	Will have a degreasing effect on the skin which may lead to irritation on prolonged contact with the concentrate.
Eye	Irritant.
Chronic Effects	Repeated skin contact with the concentrate may lead to dermatitic effects.

12. Ecological information

Ecotoxicity	No data available
Persistence/Degradability	The substance is expected to be readily biodegradable according to the AS 4351 Part 2 test protocol.
Bio-accumulative	Bioaccumulation is unlikely to occur.

Potential
Mobility in Soil

No data available

13. Disposal considerations

Disposal

Containers should be emptied as completely as practical before disposal. If possible, recycle product and containers either in-house or send to recycle company. If this is not practical, send to a commercial waste disposal site.

14. Transport Information

UN Number

This product is not classified as a Dangerous Good by ADG, IATA or IMDG/IMSBC criteria. No special transport conditions are necessary unless required by other regulations.

15. Regulatory Information

AICS

All of the significant ingredients in this formulation are compliant with NICNAS regulations.

16. Other information

Abbreviations

AICS
CAS Number

HAZCHEM Code

IARC

LEL

LD50

LC50

NICNAS

Peak Limitation

SDS

STEL

TWA

Australian Inventory of Chemical Substances
Unique Chemical Abstracts Service Registry Number
Ecotoxic Concentration 50% — concentration in water which is fatal to 50% of a test population (e.g. daphnia, fish species)
Exposure Standard - The airborne concentration of a biological or chemical agent to which a worker may be exposed in a work day
Globally Harmonised System of Classification and Labelling of Chemicals
Emergency action code of numbers and letters that provide information to emergency services, especially fire fighters
International Agency for Research on Cancer
Lower Explosive Limit
Lethal Dose 50% — dose which is fatal to 50% of a test population (usually rats).
Lethal Concentration 50% — concentration in air which is fatal to 50% of a test population (usually rats)
National Industrial Chemicals Notification and Assessment Scheme
Peak Exposure Value: The maximum airborne concentration of a biological or chemical agent to which a worker may be exposed at any time.
Safety Data Sheet
Short Term Exposure Limit - The maximum airborne concentration of a chemical or biological agent to which a worker may be exposed in any 15 minute period, provided the TWA is not exceeded
Time Weighted Average — generally referred to as averaged over typical work day (usually 8 hours)
