Bevel	Regular
Locking System	Tight Lock
Surface	EIR

Hybrid Flooring Construction

- 1 Multi-layer protective coating
- 2 Deep structured decorative layer
- 3 Rigid limestone based core
- 4 Core sound absorbing pad

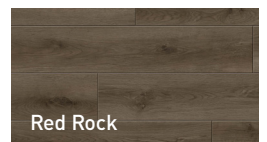

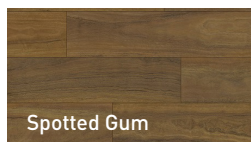

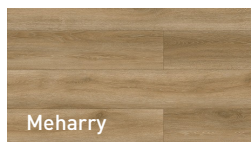

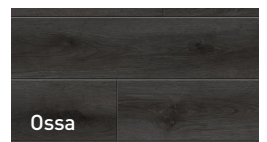

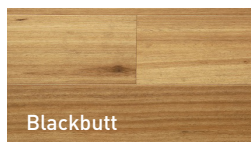

Resilient. Durable. Versatile. Water resistant. Hybrid flooring provides the luxury look of real timber flooring, while performing as a robust material to protect from daily wear and tear.

At the decorative layer, hybrid floors feature an authentic timber look, embossed with a wood grain pattern - an effective alternative to hardwood floorboards. There are a vast range of colours and wood grains available, and their functionality is designed to last.

Colour Range

8 colours available in the Prestige Hybrid Flooring range by Volaré
