

Hammer drill bit

@twister plus

Ø 5 to 25 in overall length 110 to 550 mm

**30%
faster**

PERFORMANCE

Concrete	
Stone	
Granite	
Brick	

Concrete breaker tip

Self-centering tip.
160° angle.

Maximised chiseling effect and spalling of the concrete.

Square spiral

Combining a compression channel with a depression chamber gives an instant result : perfectly controlled dust removal!

SDS-multifit SDS-plus

Available range in SDS-multifit and SDS-Plus Shanks.

DIAGER®

Combines hi-tech design with speed and efficiency. The innovative special outlet throats accelerate the removal of drill waste. The tungsten carbide tip is honed for greater accuracy, and an optimised percussion effect, resulting in this drill being 30% faster than comparable products. Twister Plus is the fastest penetrating masonry drill on the market – guaranteed.

Concrete Breaker TCT
160° self centering tip, maximises chiselling effect and breaking of the concrete.

Shank
Suits all SDS rotary hammer drills.

Square Spiral Flute
Combining a compression channel with a depression chamber gives an instant result: perfectly controlled dust removal.
