

Drill Auger Bit

Deep hole boring

- For fast cutting through holes in timber such as fence posts and railway sleepers
- Suitable for kiln dried timber hardwood, softwood, MDF and particle boards
- Not suitable for green sap woods

Size range: 6–38mm Length: 160–500mm

Coarse Screw Point

Draws the bit into the workpiece providing fast drilling in hard and soft woods

Single Spur Cutting Edge

Scribes the circumference of the hole for a smoother finish

Wide Lands

Keep the bit straight as it bores through the hole

Solid Core

Solid centre design provides extra rigidity while drilling

Hex Shank

For positive grip, preventing slippage in chuck

Performance Summary

	Softwood	Hardwood	Plywood	Wood & nails	Chipboard	Plasterboard
Wood Bit	5	4	4	✗	4	2
Spade Bit	5	4	4	✗	4	✗
Auger Bit	5	5	5	✗	5	✗
4 Flute Auger Bit	5	5	4	✗	4	✗

PERFORMANCE INDICATOR

1		Adequate to perform task
2		Suitable to perform task

Drill Wood Bit

For all woodworking applications

Precision ground from solid high speed steel, brad point drills are designed for use in furniture making, dowelling, cabinetry and other woodworking applications.

'W' point provides accurate positioning & reduced splintering

Size range: 4–12mm

'W' Point

Provides accurate positioning for starting the hole

Spur Cutting Edge

Reduce splintering and ensure a smooth clean hole

Flute Design

Special flute shape prevents jamming and ensures speedy chip extraction

Reduced Shank

Drill sizes above 10mm feature reduced shanks to suit 10mm drill chucks

Drill Spade Bit

5x faster than standard spade bits

The Sutton Tools spade bit incorporates the latest design technologies for the most powerful and fastest cutting bit on the market. Combining a power chip-breaker and heavy duty shank to increase efficiency and battery life of your power tool, with clean cutting and minimal break out on exit. Designed for drilling in timber and light building materials.

Size range: 6–38mm

Spur Cutting Edge

Reduce splintering and ensure a smooth clean hole

Hole

For hanging in workshop and pulling wires through holes

Power Chip Breaker Edge

5x faster than standard spade bits

Heavy Duty Shank

for maximum strength & durability

Hex Shank

For positive grip, preventing slippage in chuck

Holder

Suits all 1/4" hex shank bits

Grub Screw

To hold bits securely

Shank Extension

For extended reach

Drill 4 Flute Auger Bit

Fast hole boring

Four flute auger bits are shorter in length than a standard auger bit, and have extra cutting edges to provide an aggressive cutting action in hard and soft wood. Suitable for all timber building applications, the flute design efficiently withdraws chips, while the screw point draws the bit into the material.

Size range: 10–32mm

Coarse Screw Point

Draws the bit into the workpiece providing fast drilling in hard and soft woods

Four Cutting Edges

Cuts up to 5 times faster than standard spade bits

Spur Cutting Edge

Scribes the circumference, reducing splintering for a smoother finish

Hex Shank

For positive grip, preventing slippage in chuck
