Dog Park and Fitness Trail Clonlea Reserve

The Town of Gawler is extremely pleased to announce the formal opening of the new Dog Park and outdoor Fitness Trail at Clonlea Reserve.

Council first identified the need for a dog park back in November 2015. After community consultation and in conjunction with assistance from the community, the dog park finally came to fruition this month. Combined with the Fitness Trail, this is the first of its kind for the Gawler Community.

Mayor Karen Redman said, "The Town of Gawler's first dedicated Dog Park is an exciting step towards providing new facilities for dog owners within the community. The dog park will cater for dog owners not only from Gawler but for our neighbors in Light Regional Council and visitors to our town. The dog park has some great facilities including a drinking fountain with tilt dog bowl, feature logs, grassed mounds and separate puppy/small dog areas".

Mayor Redman goes on to say, "Additional to our dog park, Council will also be celebrating the opening of a wonderful new outdoor fitness trail at Clonlea Park. Council is extremely pleased to have worked in partnership with local resident, Mr Matt Mitchell, and with assistance from the State Government, enabling the fitness trail initiative to be undertaken".

The fitness trail provides fitness equipment for all to use along one of the trails and ends with a new shade area that provides seating and bbq facilities adjacent the dog park. The fitness trail will provide a challenging workout for all.

The formal opening of the dog park and the fitness trail will happen on Sunday 9 September 2018 with an opening ceremony occurring at 11am on the day at Clonlea Reserve.

The Town of Gawler would like to acknowledge Mr Matt Mitchell for his idea submission.
