

## Information About the Service

1300 Number plans provide a convenient single phone number that can be marketed anywhere in Australia as single contact point. In most cases people calling a 1300 number are charged as a single flat rate call, however this is dependent on the call plan they have with their provider.

1300 Numbers are only numbers routable in Australia and therefore international callers will need to dial another number that is internationally routable.

A minimum term of one month is required for 1300 service. If you wish to cancel your service we require written notice one full calendar month in advance of the termination date.

### What is Included:

- Web based self-management interface to control your service
- Ability to make and receive telephone calls
- Competitive call rates

### What is not Included:

- Number porting fees (apply if you wish to transfer your number from another carrier)
- Dishonour and late payment fees
- International Phone Numbers
