Buro Polo.

Promoting Active Sitting.

The Buro Polo Drafting Stool is a height-adjustable architectural stool that promotes 'active sitting'. Rock side to side and swivel while sitting to keep the core muscles engaged and the mind alert. Adjust the height of the stool using the ring under the seat. This stool is easy to sit on and get up off encouraging ongoing movement and postural change. Ideal for healthcare, laboratory and personal service workplaces.

Ergonomic Assessment.

The Buro Polo has been ergonomically assessed by Andrew Wilson, Osteopath & Ergonomist.

"The addition of extra foam depth and the live seat on this stool makes it very comfortable and versatile. It is a very comfortable, easy-to-use, and space-efficient stool which will have wide appeal. Its great advantage over other perching stools is you can sit on it comfortably in any position - it doesn't need to be centered".

Disposal Recycle Charter.

We encourage re-purposing and recycling of pre-loved chairs to reduce our impact on the environment. When a customer has a chair that they wish to dispose of, we apply the following steps to determine the most appropriate method.

We're working with **Trees That Count** to mitigate our CO₂ footprint over the next 50 years, and help protect New Zealand's threatened biodiversity.

Greening Australia has been restoring Australia's unique landscapes and protecting biodiversity at scale through collaborative, science-based programs for over 40 years. For more information, visit: www.greeningaustralia.org.au.

As a **Sedex member** we are committed to being a responsible business, sourcing responsibly, and improving ethical standards and working conditions within the supply chain.

*Many of our chairs are GREENGUARD certified for safe emission levels. This reduces the environmental impact when sending any components to landfill. For more info, please visit buroseating.com/environmental.
