- Total Power: 63W
- Dimensions: 32mm (W) x 98mm (D) x 62mm (H)

* When used in conjunction with a certified USB-C to Lightning Cable

Operating Instructions

Connect the Comsol 4 port USB desktop charger to a power socket using the provided AC power cable.

The USB-C PD (Power Delivery) port labelled 45W can charge the latest MacBook, MacBook Air, MacBook Pro 13", HP Spectre 13, HP x360, Dell XPS 13, Lenovo Yoga 720, Acer Aspire S13 & more. It can also charge larger laptops such as the MacBook Pro 15" and 16" but at a slower rate.

The USB-C PD (Power Delivery) port labelled 18W can fast charge an iPhone 8 or later from 0 to 50% in 30 minutes*. It is also ideal for charging the latest iPad Pro and the Google Pixel series of smartphones.

The two USB-A ports are ideal for charging your iPhone, smartphone, tablet, smartwatch, camera, wireless headphones or other USB devices.

When either of the USB-A ports are being used to charge devices, the 45W USB-C port will only 30W of power.

When the USB-A ports are not charging any devices, the 45W USB-C port will deliver the full 45W of power.

The 18W USB-C port will always deliver 18W of power.

Caution

- Do not apply external force on any connected cables
- If there are any strange sounds, smoke or odour, disconnect the power cable immediately
- Do not disassemble (it may cause fire or electric shock)
- Ensure to plug the cable firmly into the socket
- Do not use any cable that is damaged (it may cause fire or electric shock)
- If dirty, wipe the product with a soft dry cloth (do not use water as it may cause electric shock)
- Keep the product out of reach of small children
- Don't unplug the power cable with wet hands (it may cause electric shock)
