

Model: WCST10

10W Wireless Fast Charging Pad

User Manual v1.2

## Qi Certified

Certification program ensures this charger has passed rigorous tests to guarantee safety, compatibility and energy efficiency.

## Compatibility

Compatible with Qi-enabled devices\* including

- iPhone 11 Pro/11
- Samsung Note 10/9/8/5
- Huawei Mate 30/20 Pro
- iPhone XS/XS Max/XR
- Sony Xperia XZ3/XZ2
- Huawei P30 Pro
- iPhone X/8/8 Plus
- Google Pixel 4/4 XL/3/3 XL
- LG G8S/G7 ThinQ
- Samsung S10/S9/S8/S7
- Xiaomi Mi 9/Mi Mix 3
- LG V30+/V40

## Features

- Supports 10W wireless fast charging for compatible devices such as Samsung Galaxy Series and more#
- Supports 7.5W Apple wireless fast charging for iPhones with wireless charging#
- Supports 5W standard wireless charging for all Qi enabled devices
- No need to remove your protective case. Works with most cases up to 3mm thick
- LED indicator to show charging status
- Smart IC enables energy saving mode when device is fully charged
- Full safety protection for your devices with Qi certified temperature control, strict voltage regulation & short circuit protection
- Fixed 1.5m USB cable to connect charging pad to USB wall charger (USB wall charger not included)

\* Check with device manufacturer for Qi wireless compatibility

# When connected to a QC 2.0/3.0 wall charger

## Wireless Charger Operation

- Using the fixed USB cable, connect the wireless charging pad to a USB wall charger (USB wall charger not included)
- It is recommended to use original or reputable 3rd party branded USB wall chargers. For faster charging times it is recommended to use a USB wall charger with a minimum of 2A output
- When connected to the USB charger, the LED will be on for 2 seconds to indicate the charging pad is powered on and in stand-by mode
- Place your Qi enabled wireless phone on the charging pad and your phone should start charging automatically
- The white LED will be permanently on to indicate charging
- If your phone does not start charging, move your phone until the correct position is found and your phone starts charging
- When your phone is fully charged, the Smart IC enables energy saving trickle charge mode

## Please Note

To achieve 10W fast charging for Android devices or 7.5W fast charging for Apple devices, the charging pad needs to be connected to a Quick Charge 2.0/3.0 wall charger.

## Specifications

- Wireless Standard: WPC/Qi (v1.2.4)
- Quantity of Wireless Charging Coils: One Coil
- Input: DC 5V 2A or DC 9V 1.67A
- Output: 5W / 7.5W / 10W (Max)
- Working Frequency: 110 to 205KHz
- Charging Distance: 3 to 8mm
- Charging Efficiency: >72%
- Dimensions: 121 x 90 x 7mm
- Weight: 120g

## Important Safety Instructions

- Only use original or reputable third party chargers and cables
- Do not get wet to avoid causing short circuit damage and leakage
- Do not use in extreme hot, humid or corrosive environments to avoid short circuit damage and leakage
- Do not place too close to magnetic strip or chip ID card to avoid magnetic failure
- Do not place within 20cm of implantable medical devices (pacemaker, cochlear implant etc.) to avoid potential interference
- Do not clean with harmful chemicals or detergents
- Misuse, dropping or excessive force may cause damage to the charging pad
