- 15 minutes is all it takes to complete the sterilisation process & sterilisation will stop automatically when the lid is open for safety
- Supports 7.5W wireless fast charging for iPhone 8 or later<sup>#</sup>
- Supports 10W wireless fast charging for compatible devices such as the Samsung Galaxy Series and more<sup>#</sup>
- Supports 5W standard wireless charging for all Qi enabled devices
- No need to remove your protective case. Works with most cases up to 3mm thick
- LED indicator to show charging status
- Full safety protection for your devices with Qi certified temperature control, strict voltage regulation & short circuit protection
- Includes 1.5m USB-A to USB-C charging cable

\* Check with device manufacturer for Qi wireless compatibility

<sup>#</sup> When connected to a QC 2.0 or 3.0 wall charger (not included)

### Specifications

- Wireless Standard: WPC/Qi (v1.2.4)
- Input: DC 5V/2A 9V/2A
- Wireless Stand Output: 10W / 7.5W / 5W
- Working Frequency: 110 to 205KHz
- Charging Distance: 3 to 8mm
- Charging Efficiency: >70%
- Size: 214mm (L) x 120mm (W) x 34mm (H)
- Weight: 325g
- Certifications: RCM, RoHS, UN38.3

### UV Steriliser Operation

- Using the included USB-A to USB-C cable, connect the UV Steriliser to a USB wall charger (USB wall charger not included)
- Remove the lid and place you phone, keys, jewellery or other items into the UV Steriliser
- Replace the lid and ensure it is on correctly
- Press the power button, the LED will be red and a 15 minute sterilisation cycle will begin
- When sterilisation is complete the LED will turn off and you can safely remove your items
- At any time during the sterilisation cycle, you can remove the lid and sanitising will automatically stop for safety
- You can sterilise items and charge your phone at the same time. During this process, the LED will be a lighter green

### Wireless Charger Operation

- Place your Qi enabled wireless phone on the centre of the lid and your phone should start charging automatically
- The LED will be green to indicate wireless charging
- When your phone is fully charged, the Smart IC enables energy saving trickle charge mode

### Important Safety Instructions

- Only use original or reputable third party chargers and cables
- Only use the product for the specified purpose of use
- Do not get wet to avoid causing short circuit damage and leakage
- Do not use in extreme hot, humid or corrosive environments to avoid short circuit damage and leakage
- Do not place too close to magnetic strip or chip ID card to avoid magnetic failure
- Do not place within 20cm of implantable medical devices (pacemaker, cochlear implant etc.) to avoid potential interference
- Do not clean with harmful chemicals or detergents
- Misuse, dropping or excessive force may cause damage to the charging dock
- Do not use the product if it is damaged or emits a suspicious odour
- Unplug the product from power sources when not in use

Please Note: When wirelessly charging a device, the wireless charger and your device may feel warm. This is a normal operating condition and should not be cause for concern.
