

Safety Data Sheet

Watercolours

(Bright, Fluoro & Pastel)

Revision Number Issue Date Supersedes

16 May 2022 18 July 2017

SECTION 1 Product & Supplier Identification

Product Name First Creations Watercolours (Bright, Fluoro & Pastel) (Set of 6)

Other Names None

Product Code FCBWC6, FCFWC6 & FCPWC6

Barcode Number

Recommended Use Children's colour medium designed to be used with a wet brush.

Restrictions on Use None known

Company Educational Colours Pty Ltd

ABN 61 005 708 967

Address 2/43 Burgess Road, Bayswater, VIC, Australia 3153

Telephone +61 3 9729 0788

Supplier Code

Emergency Phone Number Australia – 13 11 26 (Poisons Information Centre)

SECTION 2 Hazards Identification

Classification of the hazardous chemical

Physical hazards Not classified
Health hazards Not classified
Environmental hazards Not classified

Label elements, including precautionary statements

Hazard symbols None Signal word None

Hazard Statements The mixture does not meet the criteria for classification.

Precautionary statements

Prevention Observe good industrial hygiene practices.

Response Wash hands after use.

Storage Store in well ventilated place. Keep container tightly closed.

Disposal Dispose of contents and container in accordance with local regulations.

SECTION 3 Ingredient Composition / Information

<u>Chemical Entity</u> <u>CAS No.</u> <u>Proportion (to 100%)</u>

Non-hazardous components to 100 %

SECTION 4 First Aid Measures

Description of necessary first aid measures

Eye Irrigate with copious quantities of water for atleast 15 minutes, lifting eyelids occasionally.

Seek medical attention.

Skin Wash off with soap and water. If any symptoms arise seek medical attention.

Inhalation Move to fresh air. Seek medical attention if symptoms persist.

Swallowed Rinse mouth with water. Give water to drink. Seek medical attention if symptoms persist.

Personal protection for first aid responders

Ensure that medical personnel are aware of the material(s) involved and take precautions

to protect themselves.

Symptoms caused by exposure

Inhalation May cause respiratory irritation and coughing. Skin May cause irritation, redness, pain and rash.

Eye May cause eye irritation, tearing, pain and redness.

Swallowed May cause gastrointestinal irritation, nausea, headache and diarrhoea

Medical attention and special treatment

Provide general supportive measures and seek medical attention if symptoms persist.

SECTION 5

Fire Fighting Measures

Extinguishing equipment

Suitable Water, fog, foam, dry chemical powder, carbon dioxide. When choosing extinguishing

equipment be aware of any potential hazard(s), example electrical.

Unsuitable Anything that could spread the fire and or risk the safety of surrounding personnel.

Specific hazards arising from the chemical

Non-flammable. No explosion hazard exists. May evolve gases hazardous to health.

Specific protective equipment and precautions for fire fighters

Self-contained breathing apparatus (SCBA) and full protective clothing (PPE) must be worn

in case of fire.

Hazchem Code Not available.

General fire hazards No unusual fire or explosion hazards known.

SECTION 6

Accidental Release Measures

Personal precautions, protective equipment and emergency procedures For non-emergency personnel

Keep unnecessary personnel away and upwind of spill. Wear appropriate protective equipment and clothing during clean up. Prevent contamination to drains / water ways. Contact Local authorities if spill cannot be contained. Place in clearly and properly labelled containers for disposal in accordance with local regulations. Heed advice under Section 8 "Personal Protection".

For emergency responders

Keep unnecessary people away. Wear appropriate dust/particulate respirator and full protective clothing. Do not breath dust and ensure adequate ventilation. Avoid generating dust. Heed advice under Section 8 "Personal Protection".

Environmental precautions

Avoid discharge to drains, water ways or onto the ground.

Methods and materials for containment and clean up

Large spills – Avoid or minimise dust. Use industrial vacuum to clean up spill, if this is not workable then sweeping is acceptable. Collect and seal in a bag or container that prevents fibre or dust emission and properly label for disposal in accordance with local regulations. Small spills – Clean up with vacuum or brush and shovel.

SECTION 7

Handling & Storage

Precautions for safe handling

Wear appropriate personal protective equipment. Observe good industrial hygiene practices to avoid skin or eye contact and inhalation of dust. Use equipment that helps to minimise dust. Any equipment that does generate dust, needs to have exhaust extraction or other effective local extraction. Work areas should be cleaned regularly to remove any build up of fibres and/or dust. Always wash hands after use. Do not eat, smoke or drink when handling this product.

Conditions for safe storage, including any incompatibilities

Store in a dry, cool location. Keep containers tightly closed when not in use.

SECTION 8 Exposure Controls / Personal Protection

Occupational exposure limits (OEL's)

No OEL's noted for this product. However, for individual components,

Titanium Dioxide 13463-67-7 10 mg/m³(TWA)

Biological limit values

SECTION 9

No biological exposure values noted for this product.

Appropriate engineering controls

Use in a well-ventilated area. If required use local exhaust ventilation.

Individual protection measures, for example personal protective equipment (PPE)

Skin protection

Wear impervious gloves.

Respiratory protection

Wear an appropriate dust mask that meets relevant Australian standards. The mask should protect against mechanically generated particulates for example silica.

Hygiene measures Use and maintain good industrial hygiene. Always wash hands after use. Routinely

maintain safety equipment. Do not eat, smoke or drink when handling this product.

Physical & Chemical Properties

Appearance Coloured solid blocks and discs.

Odour Low odour **Odour threshold** Not available Ha 7.0 - 8.5Melt point / freeze point Not available Hardening time Not available Flash point Not available **Flammability** Not flammable **Vapour Pressure** Not available **Vapour Density** Not available Relative density Not available Dispersible Solubility in water **Specific Gravity** Not available

SECTION 10 Stability & Reactivity

Reactivity Product is considered non-reactive under normal conditions of use, storage and transport.

Chemical stability Product is considered stable at ambient temperature and under normal conditions of use.

Possibility of hazardous reactions

Hazardous polymerisation will not occur.

Conditions to avoid Heat, naked flames and other sources of ignition.

Incompatible materials

Strong acids.

Hazardous decomposition

If in a fire product may give rise to the release of obnoxious fumes including oxides of carbon.

SECTION 11 Toxicological Information

Information on possible routes of exposure

Inhalation Minor irritation may be expected in some individuals.Skin contact Minor irritation may be expected in some individuals.Eye contact Minor irritation may be expected in some individuals.

Ingestion Expected to be low ingestion hazard.

Acute Health Effects

Inhalation May cause respiratory irritation and coughing.Skin May cause irritation, redness, pain and rash.

EyeMay cause eye irritation, tearing, pain and redness.
Ingestion
May cause gastrointestinal irritation, nausea, headache.

Skin corrosion / irritation

Based on classification principles, the classification criteria are not met.

Serious eye damage / irritation

Based on classification principles, the classification criteria are not met.

Respiratory or skin sensitisation

Based on classification principles, the classification criteria are not met.

Carcinogenicity Not considered to be a carcinogenic hazard.

Aspiration hazard Based on classification principles, the classification criteria are not met.

Reproductive toxicity

Based on classification principles, the classification criteria are not met.

Additional Information

This product does NOT contain,

Egg, dairy, soy, seafood, wheat, shellfish or peanut products, by-products or derivatives.

SECTION 12 Ecological Information

Ecotoxicity No specific data is available for this product. However, do not release this product or any

water contaminated with this product into drains, soils or waterways. Dispose of

contaminant in accordance with local landfill or incineration regulations.

Persistence and degradability

No specific data available.

Bio accumulative potential

No specific data available.

Mobility in soil No specific data available.

SECTION 13 Disposal Considerations

Disposal methods Dispose of this product and any water contaminated with this product in accordance with

local regulations.

Contaminated packaging

The container in which the product is/was contained should also be disposed of in accordance with local regulations.

SECTION 14 Transport Information

ADG Not regulated as dangerous goods.

IATA Not regulated as dangerous goods for IATA

IMDG Not regulated as dangerous goods.

Special Precautions No special precautions or requirements for transport

SECTION 15 Regulatory Information

Safety, health and environmental regulations

This Safety Data Sheet was prepared in accordance with Safe Work Australia's Code of

Practice for the Preparation of Safety Data Sheets for Hazardous Chemicals.

Standard for the Uniform Scheduling of Medicines and Poisons (SUSMP)

Not allocated

AICS All components are listed in the Australian Inventory of Chemical Substances.

SECTION 16 Other Information

Reason for Revision Review and update information in accordance with GHS requirements.

TWA The TWA (Time Weighted Average) exposure value is the average airborne concentration

of a particular substance when calculated over a normal 8 hour working day for a 5 day working week. The term "peak" is used when the TWA limit, because of the rapid action of

the substance, should never be exceeded even briefly.
