SAFETY DATA SHEET

Section 1. Identification

Product Identifier: Hygiene Plus Hands & Surface Antibacterial Wipes (Household Grade Disinfectant. 80,100, 225 and 1200 pack wet wipes 20x15 cm)

Other means of identification: Proper Shipping name: None allocated
Product code: Assorted

Recommended use of the chemical and restrictions on use: Wipes for hands and surface cleaner.

Details of manufacturer or importer: International Consolidated Business Group Pty Ltd
Level 3, 333 Flinders Lane
Melbourne Victoria 3000
Australia

Telephone Number: +61 3 96282701 (Australia)

Emergency Telephone number: 24 hours - Poisons Information Centre
Australia: 13 1126
New Zealand: 0800 764 766

Section 2: Hazards Identification

Not classified as Dangerous Goods by the criteria of the Australian Dangerous Goods Code (ADG Code) for transport by Road and Rail; NON-DANGEROUS GOODS.

Based on available information, not classified as hazardous according to Safe Work Australia; NON-HAZARDOUS CHEMICAL.

Poisons Schedule (SUSMP): None allocated.

Signal Word: Not applicable

Hazard Statements: Not applicable

Precautionary statements: Not applicable

General

P101: If medical advice is needed, have product container or label at hand.
P102: Keep out of reach of Children.
P103: Read label before use.

Prevention:
P281: Use personal protective equipment as required

Response

P304 + P314: IF INHALED: Get medical advice/attention if you feel unwell.
P305 + P351: IF IN EYES: Rinse cautiously with water for several minutes.
P337 + P313: If eye irritation persists: Get medical advice/attention.
P332 + P313: If skin irritation occurs: Get medical advice/attention.

Storage

Store in a well-ventilated place. Keep container tightly closed.

Other hazards

None

Hazard Symbols: Not applicable

Section 3. Composition and information on ingredients

Section 4. First aid measures

For advice, contact a Poisons Information Centre (e.g. phone Australia 131 126; New Zealand 0800 764 766) or a doctor.

Have the product label or SDS with you when calling or going for treatment.

Ingestion: If swallowed, do NOT induce vomiting without medical advice. Rinse mouth thoroughly with water and drink plenty of water, contact Poisons Information Centre. Never give anything by mouth to an unconscious person.

Eye Contact: Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Remove contact lenses. Immediate medical attention is required.

Skin Contact: Wash contact area with plenty of soap and water. If irritation persists, see a physician. Wash contaminated clothing before re-use.

Inhalation: Move person to fresh air. If breathing is irregular or stopped, administer artificial respiration. Keep patient warm and at rest. Call a physician or Poisons Information Centre immediately.

Symptoms caused by exposure: No data available.
Medical attention and special treatment: Treat Symptomatically

Section 5. Firefighting measures

Suitable extinguishing equipment:
Use appropriate fire extinguishers for surrounding environment

Specific Hazards arising from the chemical:
This product is non-flammable. On exposure to heat or fire may decompose and produce toxic and/or irritating vapours.

Special protective equipment and precautions for firefighters:
Use fire water spray to keep fire exposed containers cool. Where large fires are involved, use suitable Self-contained breathing apparatus and protective clothing.

Hazchem Code: Not applicable

Section 6. Accidental release measures

Personal precautions, protective equipment, and emergency procedures:
Avoid eye contact. Avoid inhalation of vapours. For large product release, use suitable protective clothing and equipment to minimise exposure.

Environmental precautions:
Prevent run off into drains and waterways. If large quantities of this material are released into the environment, contact relevant regulatory authorities. Dispose in accordance with local and State Regulations.

Methods and materials for containment and cleaning up:
No special requirements, other than to collect material and dispose of as per the requirements in Section 13

Section 7. Handling and storage

Precautions for safe handling:
Use in a well-ventilated area. Avoid contact with eyes. Do not take internally. Exercise good industrial hygiene practice. Wash after handling, especially before eating, drinking, or smoking.

Conditions for safe storage, including any incompatibilities:
Store in a cool, dry, well ventilated area, away from direct sunlight and moisture. Keep well closed when not in use and securely sealed against physical damage. Store away from strong oxidizing agents and acids.

Section 8. Exposure controls and personal protection
No exposure standard assigned for this specific material by Safe Work Australia

Note: As published by Safe Work Australia Workplace Exposure Standards for Airborne Contaminants. TWA - The time-weighted average airborne concentration of a substance when calculated over an eight-hour working day, for a five-day working week. These Workplace Exposure Standards are guides to be used in the control of occupational health hazards. All atmospheric contamination should be kept to as low a level as is workable. These workplace exposure standards should not be used as clear defining points between safe and dangerous concentrations of chemicals. They are not a measure of relative toxicity.

Engineering controls:

Use product in well ventilated areas.

Individual protection measures, for example personal protective equipment (PPE):

Eye and face protection
Use suitable eye and face protection if required.

Skin protection
Wear suitable gloves in prolonged use situations.

Respiratory protection
Wear suitable respiratory protection in prolonged use situations.

Thermal hazards
Data is not available

Other information.

Reference standards for (PPE).
Respiratory protection: AS/NZS 1715 and AS/NZS 1716.
Gloves: AS/NZS 2161.1.
Eye protection: AS/NZS 1336 and AS/NZS 1337

Section 9. Physical and chemical properties

Appearance: White wipes, impregnated with clear liquid
Odour: Characteristic
Odour threshold: Data is not available
pH: 5-7
Melting point/freezing point: Data is not available
Boiling point and boiling range: Data is not available
Flash point: > 180°C
Evaporation rate: Data is not available
Flammability (solid, gas): Not combustible
Upper/lower flammability or explosive limits: Not flammable
Vapour pressure: Data is not available
Vapour density: Data is not available
Relative density: Data is not available
Solubility: Data is not available
Partition coefficient: n-octanol/water: Data is not available
Auto-ignition temperature: Data is not available
Decomposition temperature: Data is not available
Viscosity: Data is not available

Other physical/chemical parameters

Specific heat value: Data is not available
Saturated vapour concentration: Data is not available
Release of invisible flammable vapours and gases: Not flammable
Particle size (average and range): Data is not available
Size distribution: Data is not available
Shape and aspect ratio: Data is not available
Crystallinity: Data is not available
Dustiness: Data is not available
Surface area: Data is not available
Degree of aggregation or agglomeration, and dispersibility: Data is not available
Redox potential: Data is not available
Biodurability or biopersistence: Data is not available
Surface coating or chemistry: Data is not available

Section 10. Stability and reactivity

Reactivity: This product will react with acids to produce chlorine gas.
Chemical stability: This product is stable under normal use and ambient conditions.
Possibility of hazardous reactions: Hazardous polymerizations will not occur.
Conditions to avoid: Direct sunlight, flame, and ignition sources.
Incompatible materials: Strong oxidising agents and strong acids.
Hazardous decomposition products: Combustion or thermal decomposition will evolve toxic and irritant vapours.

Section 11. Toxicological information

No adverse health effects expected if the product is handled in accordance with this Safety Data Sheet and the product label. Symptoms or effects that may arise if the product is mishandled and overexposure occurs are:

Ingestion: No adverse effects expected, however, large amounts may cause nausea and vomiting.
Eye contact: Eye contact with this product may cause stinging, blurring, lachrymation, and possible permanent eye damage, if eyes are not quickly flushed with water shortly after contact.
**Skin contact:** Contact with skin may result in irritation. Repeated exposure may cause skin dryness or cracking with possible onset of dermatitis.

**Inhalation:** Breathing in vapours may cause irritation of the nose, throat, and respiratory system. However, this is considered an unlikely route of entry.

**Acute toxicity:** No LD50 data available for the product.

**Respiratory or skin sensitisation:** Data is not available.

**Chronic effects:** Data is not available.

**Aspiration hazard:** Data is not available.

**Other information**

No known applicable information is available

---

### Section 12. Ecological Information

**Ecotoxicity:** Avoid contaminating waterways. Not classified as ecotoxic in the aquatic environment.

**Persistence/degradability:** Slow degradation because of limited bioavailability. This material degrades rapidly in water.

**Bioaccumulative potential:** Data is not available.

**Mobility in soil:** Data is not available.

**Other adverse effects:** No information available (environmental fate, ozone depletion, photochemical ozone creation potential, endocrine-disruption potential, and global warming potential.)

---

### Section 13. Disposal consideration

Persons conducting disposal, recycling or reclamation activities should ensure that appropriate personal protection equipment is used, see “Section 8. Exposure Controls and Personal Protection” of this SDS.

If possible, material and its container should be recycled. If material or container cannot be recycled, dispose in accordance with local, regional national and international Regulations.

Rinse clean all empty containers, remove, or obliterate labelling before sending containers to landfill or for recycling.

---

### Section 14. Transport Information

**ROAD AND RAIL TRANSPORT**

**Special precautions for user:** Data is not available.

**MARINE TRANSPORT**
Not classified as Dangerous Goods by the criteria of the International Maritime Dangerous Goods Code (IMDG Code) for transport by sea.

AIR TRANSPORT

Not classified as Dangerous Goods by the criteria of the International Air Transport Association (IATA) Dangerous Goods Regulations for transport by air.

Section 15. Regulatory information

This material is not subject to the following international agreements:

- Montreal Protocol (Ozone depleting substances)
- The Stockholm Convention (Persistent Organic Pollutants)
- The Rotterdam Convention (Prior Informed Consent)
- Basel Convention (Hazardous Waste)
- International Convention for the Prevention of Pollution from Ships (MARPOL).

This material/constituents(s) is covered by the following requirements:

- the Standard for the Uniform Scheduling of Medicines and Poisons (SUSMP) established under the Therapeutic Goods Act 1989 (Cwlth) (as amended). If so, list the relevant Poisons Schedule number – Not scheduled.
- All components of this product are listed on or exempt from the Australian Inventory of Chemical Substances (AICS).

Source of data

This SDS has been prepared in accordance the Safe Work Australia Preparation of safety data sheets for hazardous chemicals Code of Practice prepared under the Work Health and Safety Act and Work Health and Safety Regulations.

Code of Practice: Labelling of workplace hazardous chemicals
‘Standard for the Uniform Scheduling of Medicines and Poisons No. 23’

Hazard Classification

Australian Inventory of Chemical Substances (AICS) (NICNAS)
Chemical Assessment Reports (NICNAS)
Workplace Exposure Standards for Airborne Contaminants
Globally Harmonized System of Classification and Labelling of Chemicals (GHS) (United Nations) Global Portal to Information on Chemical Substances (OECD).

OECD means the Organisation for Economic Cooperation and Development.

Hazardous Chemical Information System
European Chemicals Agency (ECHA)
