## Connect keyboard to Bluetooth devices

②power switch
①battery compartment
③connect button
④Indicator light

i) Place the 2*AAA battery (included) into the battery compartment ① correctly, then turn on the power switch ②

ii) Press connect button ③ to enter pairing mode, indicator light ④ will flash red.

iii) Make sure your device has workable Bluetooth function.

iv) Turn on Bluetooth function of your device and select "search for Bluetooth device".

v) Press "Bluetooth Keyboard" in the available Bluetooth device list and connect.
If your device shows several numbers and requires you enter same numbers on your keyboard, please enter the code on the Bluetooth keyboard (not on your devices virtual keyboard). Once Pairing is complete, the keyboard is ready for use.
