# BACK ASSEMBLY

## STEP 4
Pull back the bellow and allow the back stem to protrude.

## STEP 5
Insert back assembly into mechanism. Do not push stem too far through.

## STEP 6
Pull bellow over mechanism and stem. Ensure that the hole is over the stem.

## STEP 7
Push stem through the hole to the desired height. Tighten with knob

### BACK ASSEMBLY COMPLETE

## STEP 8
Insert the top of the base into underside of the seat.

The levers adjust seat height and back angle.
